RE: Affinity Program Membership

Kevin

We are pleased to approve your company as an Affinity Program Member. As you know, *The New Jersey Chamber of Commerce seeks to promote a vibrant business environment and economic prosperity through vision, expertise and innovative solutions. We do this by assisting our membership with strong legislative efforts that focus on improving the regulatory environment, and to promote business services such as yours that help companies operate more efficiently and profitably.*

As your company's focus is on improving net profits by providing web based solutions that reduce overhead expenses and operational supply costs, we have concluded that your business service will significantly assist the Chamber's members in this difficult economy. As such, we encourage our membership to speak with you and to take advantage of the unique services that your company provides.

Again, welcome to the NJ State Chamber of Commerce.

Regards,

Tom Bracken
